OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

13 December 1999

Dear Secretary:
(U.S. nuclear Regulatory agency
Washington D.C. 20555)

att: Rulemaking & Adjudications Staff

Please be informed that I am unalterably opposed to recycling of radioactive waste material into consumer products.

Radiation is not something to be 'toyed' with. To expose human beings in any way, shape or form to radioactive materials is immoral.

The industry must be responsible for its containment until it is no longer reactive in any way — far into the future!

Sincerely
Louise Frazier.

P.S. Please recall all scrapmetal that has been radiated and contain it by industry.
