OFFICE OF SECRETARY
RULEMAKINGS AND ADJUDICATIONS STAFF

Dear Sir:

We are writing this letter to indicate our strong objection to the recycling of low-level nuclear waste into materials for consumer products. Low-level nuclear waste should be disposed of, not recycled into goods that we, our children, and our grandchildren will use. We also object to the secrecy with which this outrageous practice has been carried out and the minimal publicity given to its proposed expansion.

Sincerely,
