OFFICE OF SECRETARY RULEMAKINGS AND ADJUDICATIONS STAFF

DOCKET NUMBER PROPOSED RULE PR 20 (64FR35090)

Dear Sir,

The "recycle and reuse" dogma does NOT include processing radioactive waste & scrap metals through the steel, or any other metal, furnaces used to make consumer products. Co-lateral damage is not an option. If you and the DOE/NRC cronies go ahead with this legislation there will be a backlash come re-election time so overwhelming you'll wonder where all the voters have been hiding!

Regards
Paul Buck
