DOCKET NUMBER
PROPOSED RULE PR 20
(64FR35090)

(636)

W. H. Avery
7993 Bamby Lane
Jonesboro Georgia 30236

DOCKETED
USNRC

'99 -DEC 29 P5:20

Dec 20, 1999

NRC Chairman
Richard Meserve:

Only now learned of your considering releasing radioactive materials into the market, for use in products where people are.

I can't conceive of anything more evil than considering releasing such material onto the public, except actually doing it.

Government agencies have little public respect left. Don't add this cancer, and no one knows what else, onto the living public, and unborn ones.

Thank you

W. H. Avery
