DOCKET NUMBER
PROPOSED RULE PR 20
(64FR35090)

USNRC

'99 DEC 29 P5:28

To Nuclear Regulatory Commission:

Please do not allow radioactive metals to be recycled.

That type radiation builds up in your body and does not dissipate.

You, yourselves would suffer the same dangerous consequences, along with the rest of us — you too could have cancer that could be fatal — from doses of X-Ray and radiation.

Thank you for your consideration.

Dolly Tucker
