Dear Mr. Henckel:

We have reviewed your renewal application dated August 25, 2011 for NRC License No. 21-20166-01. Before we can take further action, we will need additional information. Please confirm with the followings.

1. The total quantities of licensed material will remain the same as authorized on the NRC License No. 21-20166-01 Amendment No. 11.

2. Licensed material may be used at temporary job sites of the licensee anywhere in the United States where the U. S. Nuclear Regulatory Commission maintains jurisdiction for regulating the use of licensed material.

NUREG-1556, Volume 1, dated November 2001 provides the program specific guidance about portable gauge licenses. NUREG-1556, Volume 1 is available on the NRC website at http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v1/.

In accordance with Title 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html.

To continue review of your application, we request that you submit your response to this letter by February 3, 2012. Your response must be **dated** and **signed** by authorized personnel and referred to Control Number 575902. If you have any questions or require clarification on any of the information stated above, please do not hesitate to contact me at 630-829-9623 or frank.tran@nrc.gov.

Sincerely,

Frank P.D. Tran
Materials Licensing Branch
