

PETITION
TO STOP USE OF RADIOACTIVE WASTE IN CONSUMER PRODUCTS

We, the undersigned, call on the United States Congress and all federal, state and international regulators and legislative bodies to recapture, stop, and prevent release/clearance/recycling of radioactive wastes and materials into consumer products and the environment. '99 DEC 21 P4:24

We support regulation and isolation of radioactive wastes from nuclear power and weapons. We oppose the use of radioactive materials and wastes in consumer products and building materials including but not limited to metals, concrete, plastics, glass, paper, wood, soil, and equipment.

We call on the US Nuclear Regulatory Commission to reverse its efforts and expenditures to release radioactive wastes and to initiate a policy requiring regulatory control and isolation of all radioactive wastes. We demand the recapture and recall of radioactive materials and wastes that have been released into the marketplace.

We call on the US Department of Energy to halt all releases of radioactive wastes and materials into the marketplace, to recapture that which has been released and to revoke the radioactive Recycle 2000 policy immediately.
