**Subject:** Proposed Nuclear Waste Recycling

DOCKET NO. EC  
US RC

'99 DEC 21 P4 26

I would like to go on record as being against the release of contaminated nuclear metals into the scrap metal recycle chain.

Perhaps we now see a government agency that wishes us to believe 108,000 lives per year lost to new case's of cancer produced from this completely preventable reason as acceptable.

If this number is accepted as permissible ,why even bother to go after gun makers.

DOCKET NUMBER  
PROPOSED RULE **PR 20**  
(64FR35090)

You will be holding the smoking gun's, setting death ratios for other products will become matters of fact I would venture to guess.

I am against this policy of Nuclear Waste Metal recycling .

Signed ,
