OFFICE OF THE
ADJUTANT GENERAL

Dear Chairman Messers -

If you think people are only watching
forests, species and good water disappear.
Just wait until the public becomes
aware of this latest.

I see it as an attempt to Chernobylize
the country.

I have grandchildren. I must help
protect their future. Nuclear wastes,
radioactive material. These should be
isolated rather than leave them
or put them near people,
They should be out of harm's way!

I have you,

Iris W. Fealody
