Dear Chairman Meserve:

Please be advised that our family is absolutely opposed to release of any radioactive materials, or anything contaminated by them, into the US marketplace (or, for that matter, into any country's marketplace.) We are deeply concerned about this issue and the possible adverse health effects on our children and grandchildren, and on the general health of America's current and future generations.

OFFICE OF THE
ATTORNEY GENERAL

Further, we strongly feel that the comment period on this issue should be extended well into 2000, so that there will be sufficient time for public study and debate of this issue.

DOCKET NUMBER
PROPOSED RULE **PR 20**
(64FR35090)

We will be monitoring this situation. We vote.

Sincerely, Mr & Mrs James B. Washburn, and Family
