

DOCKET NUMBER **PR 20**
PROPOSED RULE **PR**
(64FR35090)

Shame! Shame! ^{DR. SHARON} Shame!

How could such an idea
even be considered?

99 DEC 21 P 4:21

Don't there ^{OF} enough

pollution in ^{ADDED} the world

already? Why for the sake

of commerce (i.e. greed)

should ^{we} we make radioactive

waste and make it into our

everyday products. We don't

know what is low level waste

and how it will affect the

human system if we were in

contact with it daily or often

No — Please stop the use

of radioactive waste in consumer

products before it starts —

That is morally common sense!

Sincerely
Carmen Pappas
