Chairman Richard Meserve
U.S. Nuclear Regulatory Commission
Washington D.C. 20555

OFFICE
ADMINISTRATIVE

Dear Chairman Meserve:

I am writing to ask the Nuclear Regulatory Commission to isolate radioactive wastes and materials and anything they contaminate, no matter what level.

Using radioactive wastes in consumer products poses unnecessary, avoidable, involuntary risks. As a consumer, a voter, and a child development expert, I cannot accept these risks.

Please keep the legacy of atomic weapons and energy production completely isolated from the public and from our environment.

Sincerely,
Dawn M. Kastanek

P.S. - Please extend the time for the "scoping" process.
