352

Chairman Richard Meserve
U.S. Nuclear Regulatory Commission
Washington, DC 20555

DOCKET NUMBER
PROPOSED RULE PR 20
(64FR35090)

Dear Chairman Meserve,

I am writing to oppose the release of radioactive wastes and materials into the consumer market. This release would cause an unnecessary risk to consumers and producers of affected consumer goods.

Additionally, the current method of releasing radioactive wastes from power reactors and weapons facilities must cease. Radioactive materials should be kept isolated due to known and unknown health risks.

Please exercise your leadership in creating an NRC ban on the release of radioactive wastes and materials into the consumer market.

Sincerely,

V. Lynn Edmiston
