Subject: PLACING A LETTER TO ME IN THE PUBLIC DOCUMENT ROOM

Attached you will find a letter addressed to me from Philotechnics, dated November 29, 1999, signed by Donald A. Barbour. The letter is not from a licensee, and does not pertain to any particular NRC licensee. It discusses issues concerning depleted uranium and its use in counterweights (a 10 CFR Part 40 issue). I wish to have the letter placed in the Public Document Room at your earliest convenience.

There was a letter sent to me by the same individual (Donald A. Barbour) that was dated August 30, 1999, that I sent to your office in the same manner earlier this year. That August 30, 1999 letter has been docketed by your office as a petition for rulemaking (PRM-40-28). I think this November 29, 1999 letter could be considered additional information/supplemental to that August 30, 1999 letter.

If you have any questions, please contact me at 415-7833. Thank you.
