Withdrawal of Technical Specification Change Request No. 272
(MA 3951)

AmerGen Energy Company, LLC (AmerGen) requests that Technical Specification Change Request (TSCR) No. 272 be withdrawn. TSCR No. 272, which was submitted on October 19, 1998, by GPU Nuclear, Inc. for TMI Unit 1, proposed a revision to the allowable reactor coolant system specific activity limit. Based on technical issues associated with the proposed methodology discussed with NRC staff in the review of the proposed change, AmerGen has decided to request withdrawal of this TSCR from further consideration.

Very truly yours,
