DOCKET NUMBER  
PROPOSED RULE **PR 20**  
(64FR35090)

Dear Chairperson:

Please keep radioactive wastes and materials from nuclear power and weapons from the public and the environment; prohibit any "releases" from regulatory control.

Please prohibit radioactive wastes and materials from entering the consumer marketplace, landfills, incinerators, in short, anywhere except licensed radioactive facilities.

Please recapture radioactive wastes already released and work for an international prohibition on radioactive releases.

People shouldn't have to put up with added radioactivity in their homes or products they use.

Thank you.

Sincerely,  
Mark M Giese
