Subject: Radioactive scrap metal

DOCKETED
USNRC

'99 DEC 22 A9:01

Attn.: Richard Meserve - Rolemaking Board

Dear Mr. Meserve,

It has recently come to my attention that the NRC is selling radio active scrap metal from our nuclear reactors for recycling purposes. If this is indeed true, this needs to be stopped. We can not have this type of material out in the general public due to the harm it can cause every day citizens. You must put a stop to this practice immediately.

Thank You

Bill Jene'
