Subject: Recycling low level radioactive materials

DOCKETED
USMRC

'99 DEC 22 A9:03

Dear Sir:

We have just been informed that today is the deadline for public input on your horrifying plan to recycle low level radioactive metals by authorizing their use in ordinary consumer products. We protest further endangering our populace by proliferation of so-called "low level" wastes. Every little bit of radioactive waste contributes to a constantly increasing buildup which will eventually have effects on our children and grandchildren in ways we cannot foresee or imagine. PLEASE reconsider such a careless and foolish action. IT MUST NOT HAPPEN.
