Subject: radioactive recycling

DOCKETED
USNRC

'99 DEC 22 A9:03

Dear NRC,

I am writing to tell you that I find the idea of ANY recycling of radioactive waste into consumer items COMPLETELY UNACCEPTABLE. It should go without saying that I do not want to hand my child a radioactive toy, drive a radioactive car, cook on a radioactive stove, or sleep on a radioactive bed. I find the entire effort to shift the burden of this poisonous waste from the companies who made it to the consumer and/or the taxpayer morally reprehensible, cynical, short-sighted and disrespectful of the planet and any possible future we humans may have on it.

(64FR35090)

How are our children to live healthy lives, surrounded by dangerous invisible mutagenic poisons?

It is very important to me that you immediately take steps to reclaim the waste that has already gone out of supervision, and sheer common sense not to release any more. Thank you.

Sincerely,

Beverly Woods
