Subject: 'recycling radioactive waste to save money

DOCKETED  
USMRC

'99 DEC 22 A9:01

I just want to tell you that I am 100% against any program that would recycle radioactive materials into household items. The fact that you would even consider such a program, just because it saves some money, is appalling and terrifying. I have 2 young children and I can't believe you would even consider doing this. What kind of moral monster came up with this idea?
