Subject: The proposal to utilize radioactive waste materials in new products.

99 DEC 22 A9:02

Dear Chairman Meserve:

I was informed of the NRC plans to permit radioactive waste materials to be utilized in the manufacture of new products. I am shocked the NRC and you would even entertain this proposal. I have to wonder why such a concept is even being considered. I have only one piece of advice for you: DON'T DO THIS.

I am not hopeful that you will listen to individual citizens; please surprise me and do so.

Sincerely,
Juanita S. Durham, APRN
