

DEC 22 1999

**PROGRAM MANAGEMENT INFORMATION: TECHNICAL CONFERENCING FORUM -
REQUEST FOR COMMENTS ON DRAFT NUCLEAR MATERIALS SAFETY CHAPTER OF
THE STRATEGIC PLAN (SP-99-081)**

In All Agreement States letter SP-99-077, dated December 2, 1999, we described that the Nuclear Regulatory Commission (NRC) is in the process of developing the FY 2000-2005 Strategic Plan. As noted in that letter, we would invite your review and comment on the draft Nuclear Materials Safety chapter when it becomes available.

The draft Materials chapter which is undergoing Commission review has been uploaded to the Technical Conference Forum (TCF). The TCF can only be accessed by the Agreement States having a unique user name and password, which were last updated via All Agreement States letter SP-99-027. Due to the need to complete the Strategic Plan on schedule, we would greatly appreciate receiving your comments by **December 31, 1999**. Please provide comments to Daryl W. Kade, Division of Planning, Budget, and Analysis, Office of the Chief Financial Officer, at 301-415-7326 or by Internet at DWK@NRC.GOV, with a copy to the point of contact listed below.

We are especially interested in having your comments on the safety performance goal measures and your input on what kind of measures you are currently using to determine that your safety performance goals are being achieved. We recognize that this time of the year and the relatively short comment period may not be convenient for you. Therefore, any comments received after the end of the year will still be considered as discussion topics during the public meeting in the Spring 2000 as stated in the SP-99-077 letter.

Due to its pre-decisional nature, this document is exempt from public disclosure under NRC rules. We request that you limit distribution to your staff and not release the document publicly. If this document is released, please inform me or the individual named below within 24 hours. The draft Nuclear Materials Safety chapter can be accessed through the TCF subsystem at <http://techconf.llnl.gov/cgi-states/topics>, using your appropriate user name and password.

Thank you for your attention to this matter. If you have any questions regarding this correspondence, please contact me at (301) 415-2325 or the individual named below.

**PROGRAM MANAGEMENT INFORMATION: TECHNICAL CONFERENCING FORUM -
REQUEST FOR COMMENTS ON DRAFT NUCLEAR MATERIALS SAFETY CHAPTER OF
THE STRATEGIC PLAN (SP-99-)**

In All Agreement States letter SP-99-077, dated December 2, 1999, we described that the Nuclear Regulatory Commission (NRC) is in the process of developing the FY 2000-2005 Strategic Plan. The Plan covers strategic arenas in Nuclear Reactor Safety, Nuclear Materials Safety, Nuclear Waste Safety and International Nuclear Safety Support.

As noted in that letter, we would invite your review and comment on the draft Nuclear Materials Safety chapter when it becomes available following the draft Nuclear Waste Safety chapter. The draft Materials chapter which is undergoing Commission review has been uploaded to the Technical Conference Forum (TCF). We would appreciate receiving your comments by **December 31, 1999.**

The TCF can only be accessed by the Agreement States having a unique user name and password, which were last updated via All Agreement States letter SP-99-027. Please provide any comments on the draft directly to Daryl W. Kade, Division of Planning, Budget, and Analysis, Office of the Chief Financial Officer, at 301-415-7326 or by Internet at DWK@NRC.GOV with a copy to the point of contact listed below.

As stated in the SP-99-077 letter, we would align the Waste and Materials chapters to assure they are congruent after we receive your comments on these two drafts. We plan to complete the entire Strategic Plan and publish it for public comment in the spring, 2000. During this time, we will invite you to a meeting to discuss any comments that you may have on the Strategic Plan.

Due to its pre-decisional nature, this document is exempt from public disclosure under NRC rules. We request that you limit distribution to your staff and not release the document publicly. If this document is released, please inform me or the individual named below within 24 hours. The draft Nuclear Materials Safety chapter can be accessed through the TCF subsystem at <http://techconf.llnl.gov/cgi-states/topics>, using your appropriate user name and password.

Thank you for your attention to this matter. If you have any questions regarding this correspondence, please contact me or the individual named below.
