To Whom it May Concern,

Regarding the proposed rule for RADIOACTIVE "RELEASE" and "RECYCLING" into the marketplace, regular landfills, incinerators, etc.

OFFICE OF THE
REGULATORY
ADJUTANT GENERAL

I don't buy it! I don't believe such 'recycling' is safe, and I will do my best NOT to buy products that contain such contaminants. Besides wanting all creation of radioactive waste halted, the amount that is present should be dealt with extremely carefully and with the least danger to our environment, including ourselves.

Thank you for considering my opinion.

Sincerely,
CL Swatland
