

DOCKET NUMBER
PROPOSED RULE **PR 20**
(64FR35090)

DOCKETED
USNRC

'99 DEC 27 P6:02

RULES AND REGULATIONS
ADJUDICATIONS

From the desk of...
NICHOLAS COGELIA
12-21-99

To: Richard Meserve
Chairman, NRC

Dear Sir,

We believe that the NRC's
^(introduced)
proposal to use radioactive
contaminated metals into the
U.S. steel supply is ill
conceived and ludicrous.
The idiots that propose such
action should know that
no level of radiation for
extended periods of exposure
is safe. I trust that
common sense will prevail on
this matter & such contaminated
material will be safely isolated
from civilian exposure. Sincerely

Nicholas Cogelia
