Re: Radioactive Recycling

I am writing this letter to formally register my strict opposition to the potential recycling of radioactive materials. Not only do I oppose the clandestine nature in which this process would take place, but I am frankly appalled to learn that dollar cost savings is being equated with loss of human lives.

As a person of my good faith I would be more than willing to help (financially or otherwise) address this potentially life threatening situation. Please contact me at the following address:

1837 Marsh Trail Circle
Atlanta GA 30328

If a financial payment is requested, please include the total amount of savings this project plan would bring. Thank you.
