DOCKETED
USNRC

20 DEC 1999

'99 DEC 27 AIO:55

Dear Chairman Meserve,

OFFICE OF
RULEMAKING
ADJUDICATION
STAFF

DOCKET NUMBER
PROPOSED RULE **PR 20**
(64FR35090)

We believe it is an outrage that the NRC
is contemplating recycling radioactive waste
into consumer products. These materials should
be isolated & disposed of in a manner that will
not expose the public to unnecessary, unwanted &
unknown risks.

The comment period for this proposal
should be extended to September 2000 to
allow for full debate by the public. The
health & welfare of this & future generations
is too important to threaten by actions so
hasty.

Sincerely,

Robert M. Thomas Jr.
