DOCKET NUMBER PP 20
PROPOSED RULE PP 20
(64FR35090)

Dear Sir,

The "recycle and reuse" dogma does NOT include processing radioactive waste & scrap metals through the steel, or any other metal, businesses used to make consumer products. Co-lateral damage is not an option.

If you and the DOE/NRC cronies go ahead with this legislation there will be a backlash some re-election time so overruling you'll wonder where all the voters have been hiding!

Regards
Paul Buck
