ELECTRONIC TRANSMISSION, ISSUES TO BE DISCUSSED  
IN AN UPCOMING TELEPHONE CONFERENCE  
REGARDING AMENDMENT REQUEST DATED 10/25/99  
(TAC MA7119)

The following questions were transmitted by email today to Mr. Steve Leonard of Niagara Mohawk Power Corporation to prepare him and others for an upcoming telephone conference. This memorandum only records the electronic transmission and does not convey a formal request for information or represent an NRC staff position.

**From:** Peter Tam  
**To:** INTernet:leonardm@nimo.com, INTernet:wolniakd@nim...  
**Date:** Thu, Jan 6, 2000 3:47 PM  
**Subject:** NMP2 - Amendment Request, TAC MA119

**Steve:**

This is in reference to your amendment request dated 10/25/99.

**Please consider the following questions and discuss your response with us in a conference call in the near future. These questions do not currently constitute a formal request for information (RAI) and do not necessarily represent any NRC staff position. In the conference call we will discuss the need or otherwise for any formal followup action.**

1. **Page 2, last para: The reference document on which OPRM Upscale automatic bypass at 30% RTP or 60 % core flow is based?**
2. **Page 3, first para: We may need diagrams of OPRM and voter channel configuration.**
3. **Page 3, second para: Justifications for selecting 120 days for permanent action.**
4. **Page 4, RPS Response Times: Your response to the NRC's requirements specified in the SE approving NEDO-32291?**

**Please call or e-mail me to set up a conference call. Thanks.**

**Peter**
