SUBJECT: REQUALIFICATION PROGRAM INSPECTION - SUSQUEHANNA

Dear Mr. Byram:

In a telephone conversation on January 3, 2000, Mr. Joseph D'Antonio and Mr. Bruce Stitts made arrangements for the NRC to inspect the licensed operator requalification program at the Susquehanna Steam Electric Station facility. The inspection is planned for the week of February 7, 2000, which coincides with your regularly scheduled requalification examination cycle. The staff at your facility should prepare and conduct the requalification examinations in accordance with your NRC-approved requalification program.

In accordance with 10 CFR 55.59(c), the NRC may request facility licensees to submit their comprehensive requalification written examinations or annual operating tests as necessary to support the NRC's inspection program needs. In order for the NRC to adequately prepare for this inspection, please furnish the written examinations and operating tests scheduled for the week of the inspection to the NRC by January 24, 2000. Mr. Stitts has been advised of this request and provided with the name and address of the NRC lead inspector assigned to this inspection.
