MEMORANDUM TO: File Center

FROM: Alexander W. Dromerick, Sr. Project Manager, Section 1 Orig. signed by:
Project Directorate I
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

SUBJECT: TELECONFERENCE ON DECEMBER 9, 1999, RE: BALTIMORE GAS
AND ELECTRIC COMPANY'S (BGE) CALVERT CLIFFS NUCLEAR
POWER PLANT IPEEE AUGUST 31, 1998, RAI RESPONSES.

The staff sent RAIs regarding the IPEEE analysis to the licensee on June 26, 1998, and the licensee responded on August 31, 1998. In a phone call on December 9, 1999, between BGE representatives (John Osborne, Bruce Morwca and Mark Graham) and the NRC staff (Alexander Dromerick, Alan Rubin and Edward Chow), BGE advised the staff that they followed the EPRI Fire PRA Implementation Guide and have determined that they need not take additional action regarding the June 26, 1998, RAI question 2 and 6 because their analysis regarding these issues is consistent with the revised EPRI guidelines. With respect to question 3, BGE indicated that additional analysis is necessary and it would not be completed until 2002, because they have determined that this issue is a lower priority item. BGE stated that they will advise the staff in mid-April 2000, on the status of their analysis and whether they could provide the response at an earlier date.

Docket Nos. 50-317 and 50-318
