Subject: CNWRA Program Manager's Periodic Report on Activities of the Center for  
Nuclear Waste Regulatory Analyses for Period 3–FY2000

Dear Mr. Linehan:

The enclosed "Program Manager's Periodic Report" (PMPR) documents the progress and financial status of the Center for Nuclear Waste Regulatory Analyses for the period November 20–December 17, 1999. Its contents comply with the requirements of section F.1.5 of the referenced contract. A diskette containing the PMPR in WordPerfect 8 format is also enclosed.

Cost variance analyses are provided for the Division of Waste Management (D1035), Tank Waste Remediation System (J5164), Dry Transfer System (J5206), Centralized Interim Storage Facility (D1035), and Private Fuel Storage Facility (J5226) Job Codes, as well as for composite spending on this contract. All variances are expressed with regard to the operations plans for FY2000.

The support documentation accompanying the vouchers for period 3 continues to vary from the traditional format and content of the previous support documentation. After the first three fiscal periods of FY2000, the CNWRA expects to make the necessary changes in the support documentation format to return to the original format and content.

During period 3, a hydrologist joined the staff (tables 1 and 2). Two schedule changes were recorded (table 3). Eleven deliverables were transmitted (table 4).

Please contact me or Mr. Henry Garcia if you have questions regarding this report.

Sincerely yours,

Wesley C. Patrick  
President
