Subject: isolate radionactive wastes

Dear Chairman Meserve:

I am writing to call on the Nuclear Regulatory Commission to isolate radioactive wastes and materials and anything they contaminate, no matter what level. The radioactive legacy of atomic energy and weapons production should be isolated from the public and the environment.

OFFICE
OF
ADMINISTRATION

The NRC should also extend the comment period on releasing radioactive waste into commerce to at least September 2000. This issue is too important to act hastily upon and it should be fully debated by the public. The public has spoken repeatedly before on this issue and needs time to be informed that subject is open again or still.
