Re: Scoping of NRC proposed rule for RADIOACTIVE "RELEASE" and "RECYCLING" into the marketplace, regular landfills, incinerators, etc.

I am very upset to learn that radioactive waste is being released and recycled into everyday commerce! Please consider the following in developing your ruling:

o PROHIBITION ON RADIOACTIVE RELEASES AT ANY LEVEL (other than naturally existing background) and,

o RECAPTURE OF ALREADY-RELEASED RADIOACTIVE MATERIALS, AND A HALT TO ONGOING RELEASES THAT ARE GETTING OUT NOW.

Thank you for considering the above on this extremely important issue!
