radioactive waste being released and recycled into everyday commerce!

Tell NRC what to consider in developing this rule:

NIRS is demanding PROHIBITION ON RADIOACTIVE RELEASES AT ANY LEVEL
(other than naturally existing background) and RECAPTURE OF
ALREADY-RELEASED RADIOACTIVE MATERIALS, AND A HALT TO ONGOING RELEASES
THAT ARE GETTING OUT NOW.

Please keep radioactive metals out of our homes, cars, and bodies, stop
the recycling and do more testing.
