Subject: RadioactiveContamination of household metals

'99 DEC 27 AS:28

We are very much concerned after reading an alarming article in the Atlanta Constitution, Dec 20, which commented on the possible contamination of everyday articles made from metals contaminated with radioactive substances.

OFFICE
OF
ADJUTANT
GENERAL

To what extent is this true...and is this not a matter which should be of major concern to all of us? Radiation contamination of daily household items is indefensible! Please reconsider your decision to allow this!!!!!!
A generally accepted scientific fact is that there is not a totally safe dose of radiation.
