Re: TURNING NUCLEAR WASTE INTO HOUSEHOLD ITEMS

This is a letter to state that I as a U.S. citizen am against any radioactive "recycling" program that would turn radioactive waste into household items in the United States or any other country. I do not support nuclear power and weapons wastes "released," "cleared," "deregulated," "exempted, or by any other means allowed out of nuclear facilities and into the marketplace or the environment, at any level.

I am in favor of the NRC, EPA and DOE taking preventive measures in this issue, and taking the lead in preventing the contamination of the international marketplace. To save money at the risk of contamination of the public is sinister. Whose best interests are at stake here.

Sincerely,

Sherie Lewis
