Re: Docket 50 - 131

Dear Al:

Enclosed you will find two copies of the addition information requested for the renewal of our Facility Operating License R-57. The original has been sent to the Document Control Desk.

It is my hope that I have adequately addressed the questions and comments outlined in your August 2, 1999 letter and in comments of our telephone conversations (December 1999).

The Requalification Plan is enclosed as a complete document. Specific items changed are as follows:

1. Section 2.1; References to 10 CFR have been corrected.
2. Section 2.6; Changes made to Reactor Supervisor examination schedule to provide additional clarity.
3. Minor formatting changes.

Sincerely,

A handwritten signature in black ink, appearing to read "John P. Claassen", is written over a horizontal line.

John P. Claassen
Reactor Manager

Enclosure:

Requalification Plan
