Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

To Whom It May Concern:

I am a concerned U.S. Citizen requesting your support of Proposed Rules #1 and #2.

As we all know nuclear energy is essential to today's economy. However, if proper safety measures are not in place, "today's economy" will no longer exist.

The thought of a fatigued and job-scared employee being responsible for operation and repair of a nuclear power plant is quite frankly, terrifying. It is imperative that nuclear power plant staff be properly trained in safety measures.

Please consider the magnitude of your responsibility when making your decision on these rules.

Thank you for your time.

Very truly yours,

Connie Kulas
