The Northeast Utilities System

JAN - 5 2000

Docket No. 50-336  
B17957

Re: 10 CFR 55.5  
10 CFR 55.23

Mr. H. J. Miller, Regional Administrator, Region I  
U. S. Nuclear Regulatory Commission  
475 Allendale Road  
King of Prussia, PA 19406

Millstone Nuclear Power Station, Unit No. 2  
License Renewal Application

Northeast Nuclear Energy Company (NNECO) hereby submits a "Statement of Personal Qualification (NRC Form 398)," along with supporting "Certification of Medical Examination by Facility Licensee (NRC Form 396)," (Attachment 1) in support of the license renewal for the following Reactor Operator:

<u>Name</u>	<u>License No.</u>	<u>Docket No.</u>	<u>Expiration Date</u>
James A. Jorinscay, Jr.	OP-10668-01	55-61042	02/10/00

During the preparation of this renewal application, a discrepancy was noted in the supporting training records. Specifically, it was determined that the participation of this individual in a weekly Progress Review Examination (PRE) given in 1994 at the conclusion of a week of Licensed Operator Re-qualification Training (LORT) (Cycle 4, 1994) could not be documented. Participation in this examination, which encompassed only the material delivered during that week of the LORT program, was a NNECO administrative and programmatic requirement. Administration of and participation in PRE's is not mandated under the Code of Federal Regulation.

This discrepancy was discussed with the NRC Senior Resident Inspector on December 21, 1999. As was stated in that discussion, a review conducted in conjunction with the Corrective Action Program had determined that the topical content for that week of the LORT program and the subject PRE, had been presented and

*POU ADDON OSUW336*

examined in subsequent years. In addition, this operator had successfully participated in subsequent Annual Operating Examinations and Biennial Written examinations as required pursuant to 10 CFR 55. Additional actions (if any) to address this discrepancy will be implemented under the Millstone Corrective Action Program.

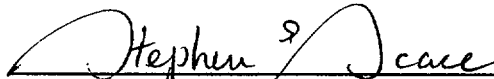

These attachments contain personal and medical information, the public disclosure of which would constitute a clearly unwarranted invasion of personal privacy. As such, the information contained on these attachments is exempt from public disclosure pursuant to 10 CFR 2.790(a)(6). Accordingly, this letter is being sent to the Regional Administrator, Region I, as required by 10 CFR 55.5. No redacted versions are being supplied.

There are no commitments contained within this letter.

Should you have any questions regarding this matter, please contact Mr. R. W. Flanagan at (860) 437-5817.

Very truly yours,

NORTHEAST NUCLEAR ENERGY COMPANY

Stephen E. Scace  
Director - Nuclear Oversight and  
Regulatory Affairs
