US Nuclear Regulatory Commission:

"According to an article in  
"Public Citizen," there is danger  
that radio-active materials  
may soon be recycled into  
consumer products, with no  
warning to consumers! This  
is outrageous!! I implore you  
to do all in your power  
to put a stop to this disgrace-  
ful situation.

Your response will be  
appreciated.

Sincerely,

Mary E. Gamson
