Dear Chairman Meserve:

I am writing to call on the Nuclear Regulatory Commission to isolate radioactive wastes and materials and anything they contaminate, no matter what level. The radioactive legacy of atomic energy and weapons production should be isolated from the public and the environment.

ADJUDICATED

We do not want nuclear power and weapons wastes released, cleared, deregulated, exempted, generally licensed or by any other means, allowed out of nuclear facilities and into the marketplace or the environment, at any level.

The current methods of releasing radioactive wastes from commercial licensees and weapons facilities must cease. No future radioactive releases should be permitted and a full accounting and recapture of that which has been released should commence.

Thank you for your attention,

Sincerely,

Corlita Bonnarens
