DOCKET NUMBER
PROPOSED RULE **PR 20**
(64FR35090)

Dear Friends:

OFFICE OF
REGULATORY
ADJUDICATION

It is horrifying to learn radioactive
wastes may now enter landfills and incinerators
and may even be used to manufacture consumer
goods.

Please keep radioactive releases out of
the environment and don't let them find their
way into consumer goods.

Recapture what's been released and
work for an International Prohibition on radioactive
release. Now.

Sincerely,
Winnie Dushkind
