SUBJECT: DRY CASK STORAGE CONCERNS

Dear Ms. Shillinglaw:

I am responding to your December 10, 1999, letter to Chairman Richard Meserve. Thank you for your comments. The staff is carefully reviewing your letter to determine if there are any issues that have not been previously addressed. If any new or unique safety issues are identified, the staff will consider them in its ongoing license reviews and inspection activities.

Regarding the documents that you requested on the TranStor cask impact limiter and basket analyses and Trojan dry storage cask coating evaluation, these issues are currently under staff review and copies of all correspondence are available in the Public Document Room.

I want to assure you that the Nuclear Regulatory Commission staff takes its mission very seriously of assuring public health and safety. If you have additional comments or questions that you believe the staff should consider, please let me know.

Sincerely,
