N. King Stablein, Acting Chief
Uranium Recovery Branch
U.S. Nuclear Regulatory Commission
Division of Waste Management
Office of Nuclear Material Safety and Safeguards
Mail Stop T7J9
Washington, D.C. 20555

Dear Mr. Stablein:

Enclosed are two copies of the *Final Site Observational Work Plan for the UMTRA Project Site at Grand Junction, Colorado*. The Work Plan contains information to support the compliance strategy for ground water associated with the old Climax Uranium Mill Site in Grand Junction. An Executive Summary and Section 7 discuss the critical parts of this strategy. The version of the document that was transmitted earlier was revised slightly after comments were received from the State of Colorado.

If you have questions or require additional copies, please call me at (970) 248-7612 or Dick Dayvault at (970) 248-6375.

Sincerely,

Donald R. Metzler
Technical/Project Manager
