Dear Dr. Stratton:

On December 20, 1999, the Management Review Board (MRB) met to consider the proposed final Integrated Materials Performance Evaluation Program (IMPEP) report on the California Agreement State Program. The MRB found the California program adequate to assure public health and safety and compatible with NRC's program.

Section 5.0, page 22, of the enclosed final report presents the IMPEP team's recommendations. We request your evaluation and response to recommendations within 30 days from receipt of this letter.

Based on the results of the current IMPEP review, the next full review will be in approximately 4 years.

I appreciate the courtesy and cooperation extended to the IMPEP team during the review and your support of the Radiation Control Program. I look forward to our agencies continuing to work cooperatively in the future.

Sincerely,
