**WITHDRAWAL OF LICENSE CHANGE REQUEST (LCR) H99-01
HOPE CREEK GENERATING STATION
FACILITY OPERATING LICENSE NPF-57
DOCKET NO. 50-354**

Gentlemen:

By letter dated May 17, 1999 (Reference LR-N990137/LCR H99-01), PSE&G requested a revision to the Technical Specifications for the Hope Creek Generating Station that proposed requirements for the Oscillation Power Range Monitor (OPRM). PSE&G has subsequently decided to defer completion of the OPRM installation until the tenth refueling outage (currently scheduled to begin in October 2001). At this time, PSE&G is withdrawing LCR H99-01, but plans to resubmit the proposed changes to support implementation during the tenth refueling outage.

Should you have any questions regarding this request, please contact Mr. C. Manges at (856) 339-3234.

Sincerely,

A handwritten signature in black ink, appearing to read "G. Salamon", with a long horizontal flourish extending to the right.

G. Salamon
