Docket No. 50-220 DPR-63 Nine Mile Point Unit 2 Docket No. 50-410 _____NPF-69____

Subject: Report on the Status of the New York State Pollutant Discharge Elimination System

Gentlemen:

This report is being submitted in accordance with a letter dated April 15, 1983, which requires Nine Mile Point Nuclear Station to report State Pollutant Discharge Elimination System (SPDES) Permit violations. The site's permit is applicable to both Nine Mile Point Nuclear Station Unit 1 and Unit 2.

On December 12, 1999, a sample for oil and grease taken at 2DFM-Sump4 at the Unit 2 Control Building had a level of 31.7 mg/l of oil & grease. The SPDES Discharge Permit limitation for that outfall is 15 mg/l oil & grease. The event was verbally reported to the New York State Department of Environmental Conservation Region 7 Water Engineer on December 30, 1999, and reported to the New York State Department of Environmental Conservation in a 5-day non-compliance report January 7, 2000 (Attachment).

Very truly yours,

Richard Blebert

William F. McCarthy, P.E. Environmental Engineer II NYS Dept. of Environmental Conservation 615 Erie Boulevard West Syracuse, NY 13204-2400

RE: Nine Mile Point Nuclear Station State Pollutant Discharge Elimination System Discharge Permit Number NY 000-1015 Outfall 007, Equipment and Floor Drains

Dear Mr. McCarthy:

This letter is submitted along with the enclosed Report of Noncompliance Event regarding the oil and grease exceedance associated with the Unit 2 Control Building sump, Outfall 007, that Ms. Marsden discussed with you on December 30, 1999. The submittal of this Report of Noncompliance Event form satisfies the five (5) day written notification as contained in the State Pollutant Discharge Elimination System Permit General Conditions.

This report will also be included with the December 1999 Discharge Monitoring Report.

Should you have any questions concerning this matter, please contact Janet Marsden at (315) 349-4200.

Very truly yours,

Richard B CHLE
