SUBJECT: NRC EXAMINATION REPORT 50-424/99-301, 50-425/99-301

Dear Mr. Beasley:

On December 21, 1999, the Nuclear Regulatory Commission (NRC) completed administering operator licensing examinations to employees of your company who had applied for licenses to operate your Vogtle Electric Generating Plant, Units 1 and 2. The enclosed report presents the results of that examination.

Four senior reactor operator applicants and one reactor operator applicant who were administered the written examination and operating test, passed the examination representing a 100 percent pass rate. A Simulation Facility Report is included in this report as Enclosure 2. A copy of the written examination questions and answer key as noted in Enclosure 3, was retained by your facility following administration.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the NRC Public Document Room (PDR).

Sincerely,

Original signed by  
George T. Hopper
