Docket Nos. STN 50-498, STN 50-499  
Submittal of Revised Operations Quality Assurance Plan (Revision 14)

In accordance with 10CFR50.54, South Texas Project Nuclear Operating Company submits the attached revision 14 of the Operations Quality Assurance Plan. The revision is an incorporation of the change notices (QA-034 through QA-043) which have been submitted to the NRC during the last two years. The changes were reviewed as they were processed and were determined to not represent any reductions in commitment and did not introduce any unreviewed safety questions. The affected chapter revision numbers have been increased to the next revision level (Approval Page, Table of Contents, Definitions, and Chapters 1.0, 2.0, 7.0, 10.0, 11.0, 13.0, 14.0, 15.0, 16.0, 17.0, and 18.0) and accurately reflect the changes made since the previous submittal. The chapters that have not been changed since the previous submittal remain unchanged and are submitted to provide for an accurate and complete document. This submittal also includes, for your information, the summary of changes for change QA-043 which had not been previously submitted. This change (QA-043) was effective on December 30, 1999.

If there are any questions regarding this submittal, please contact Mr. Mark A. McBurnett at (361) 972-7206 or me at (361) 972-8434.
