MEMORANDUM TO: Stuart A. Richards, Director  
Project Directorate IV & Decommissioning  
Division of Licensing Project Management  
Office of Nuclear Reactor Regulation

FROM: Leonard N. Olshan, Project Manager, Section 1  
Project Directorate II /RA/  
Division of Licensing Project Management  
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF MEETING WITH EPRI TO DISCUSS THE MATERIAL  
RELIABILITY PROJECT'S THERMAL FATIGUE PROGRAM

On January 12, 2000, the Nuclear Regulatory Commission (NRC) and the Electric Power Research Institute (EPRI) met in Rockville, Maryland to discuss the Material Reliability Project's (MRP) thermal fatigue program. Attachment 1 is a list of the meeting attendees. The handouts provided by EPRI are available under ADAMS accession number ML003674720. EPRI is planning to provide, by the end of 2000, the MRP member utilities with a consistent set of guidelines and methodology for addressing piping thermal fatigue issues. EPRI discussed the various tasks that are part of the overall program.

The following commitments were made during the meeting:

1. The MRP will discuss with its senior management the means in which utilities will commit to implement the results of the thermal fatigue program.
2. The NRC will assist the MRP in obtaining information from foreign countries and from Pacific Northwest National Laboratory.
3. The MRP will provide the agenda for its next meeting, which is scheduled for March 7 and 8, 2000, in Denver, Colorado. NRC will review the agenda and determine if it will attend the meeting.

Project No. 669
